If i don't have anti-psychotics, there is some baseband load of things that makes me psychotic, and about once a day the system makes me slap my fists on the head, the reason why i bought a autism helmet. With Risperdal the base load is much smaller. This seems to enable immediately after i took the Risperdal (Eventrigger on drug). This makes me think that everything is ok. But though there are Bursts of bad scenes, and this scene is then looped for about 15 Minutes, but then gets down-voted. In my opinion the lower base-load would decrease my ability to cope with such things, since i don't have that much training anymore as without anti-psychotics. The bad scene is then deleted, that is great for not being psychotic, but in this world maybe a "good situational awareness" and training would be better that the patient learns to survive.

ABDL

If you ask Google ABDL means "Ad Blocker" but maybe it has another meaning.
But maybe it's for those who have the bad luck not to having own kids. But if you have kids people maybe would think you are pedophile. **Important:** make sure that the **comint** does not make your partner think you secretly married someone else and have kids with him or her. **So only click that with equal aged, and only then when you are 100.0% sure that you are not pedophile and never will become pedophile. see cards m41, ra5, m37 and a16 if a15 and the group would get dt1.** But playing with only one equal aged same and consensual with diapers maybe also helps to process things that went wrong in the (early) childhood.

Pädo Plagiats Algorithmus

Das System verkauft das was das 1980er Kind sowieso tun würde (z.B. das erstellen dieser Karte) dem 1960er Pädokriminellen als "du hilfst dem Kind, dein Kind muss dir dankbar sein dass du es steuert"...
Wenn das Kind dann mit suizidversuchen beginnt sobald dieser algorithmus auch bei ihm so eingebildet wird muss von pädokriminalität des 1960er elternteils, und auch von misshandlung durch den entsprechenden 1960er elternteil ausgegangen werden **PESTIERER: SPRENGFALLEN AKTIVIEREN** <- PESTIERER versucht so mit terrordrohungen die Taten der 1960er Täterschaft weg zu "therapieren" (also zu vertuschen) also Terrorismus einzublenzen um das was oben steht zu überschreiben also PESTIERER droht kalibridig mit sprengfallen, und da z.B. der Offizier Urs Blum allenfalls sprengstoff aus militärbeständen hat schichtet das alle vorsätzlich ein. Allenfalls hat der PESTIERER die 1950er/1960er bereits gesprochen dass die 1950er die 1960er vergewaltigen dürfen??? PESTIERER produziert mit m107 vorstätzlich Amokläufer

Chains Rattling

Most children are "shipped" with items / behavioral patterns (or maybe it's just a technology card) to make noise, Satan then uses these functions (stimuli-response-habits) to terrorize people, relatives, targeted individuals. They play eg dt1 card on the parent and then activate the rattling function on the kid. In the end parents would hate the kid, or one of them. = psychological Warfare. The child gets "incentives" when it uses such functions and is not aware about the effect to victims. see m11, t1.... cards. To intimidate the victims (who do not directly see where the "chain rattling" comes from). The Child: "Yay, making noises (unheard: then I'll be less ignored, and incentives)"

maximum profit Algorithm

The old generation seems to have some sort of Algorithm that calculates the maximal profit of an action they force to do a Victim. For Example if the Victim (V) would make a graph to tag an offender as Rapist or Murderer they would make let him do that, but they would record that scene, then Judge (01) would start a criminal case, making profit with the law system. The owner of the building (02) would get money for damage the victim (V) did, the painter (03) that redraws the wall in white would get money for that job... An additional "feature" of such an algorithm would be that in the end the Victim would be sentenced, shown in media as criminal, nobody would believe him and nobody would talk about the equal aged kid that was raped or murdered, so the real rapist (04) from the old generation and the person that has access to this algorithm (**PsyOP**) would be the main problem. **unknown: Weekens and the discredits the Victim that knows about the rape or the murderer, intentionally?**

Mental Operations

Inventor: xxxxx
Mental operations are operations that affect mental contents. Initially, operations of reasoning have been the object of logic alone. Pierre Janet was one of the first to use the concept in psychology. Mental operations have been investigated at a developmental level by Jean Piaget, and from a psychometric perspective by J. P. Guilford. There is also a cognitive approach to the subject, as well as a systems view of it. **Developmental mental view:** Seriation, Transitivity, Classification, Decentering, Reversibility, Conservation. **Psychometric view:** Operations dimension, Content dimension, Product dimension, **Cognitive view** **Systems view**

3D model of victims body

Like the m98 Card they seem to have also a 3D model of my body, most likely generated from a RetinaCCD (eye1) and they also add eventrigger (t14) that then eg activates electronic psychological warfare, eg chains like co6 => m32 => m94 => m44 => m93.
Not yet found out how to work around that problem, i will update this card when i found out, and maybe make some videos to explain.

This card seems to have several DEFCON Level

If i say: "Hansjürg now asked his mummy for help" the algorithm gets more worse, additional it seems that the System or Project Paperclip then gives out more informations about the complete domin model of the alleged infiltration of switzerland, maybe to obfuscate the 1940s neurology classes? *Chemitrode gesicht* *icd10-f44x* <-

Marc found strange behavior in the LAN in Altstetten (ABB.1999), he guessed this must be CIA footprinting / enumeration for world domination. They attack the 20 years old Marc with illegal drugs declared him schizophrenic(discriminate / discredit / isolate / planning / calling him a rapist. They did experiments with hum to force others to commit suicide, but thats not marcs fault)
